

# Multi-Level Marketing component with virtumart

## How to work

*At admin side*

*MLM Setting*

Admin can enter new member, edit it.

Set the setting for profit sharing for 300, 600 pairs

When click on specific member display genealogy tree under his member.

For free gift , admin have to first select virtumart category in which product admin want to free.

For one gift select virtumart category which contain only one product.

For two gift select virtumart category which contain two products.

For three gift select virtumart category which contain three products.

Admin can set pairs after achieving that pairs want to give the one gift , two gift , three gift.

*At front-end side*

First you need to login .

If you are administrator then you can add new member , see all members as well as see all genealogy Tree .

When new member enter then mail is send to that member and to admin with username and password.

(username is automatically generated you need to enter substituted user name).

Admin need to enabled this member at admin side.

If you are the member then you can see your own information as well as you can edit it. You can see total members of your under and genealogy tree .

Suppose 'xyz' member create 'f1' and 'f2' members then 'xyz' gets 500/-rs  
And when 'f1' create 2 members then 'f1' get 500/- rs and 'xyz' get 300/- rs.

If referral is different then he get 10 % of his sponsors .  
In one day admin can enter 10 pairs of members.

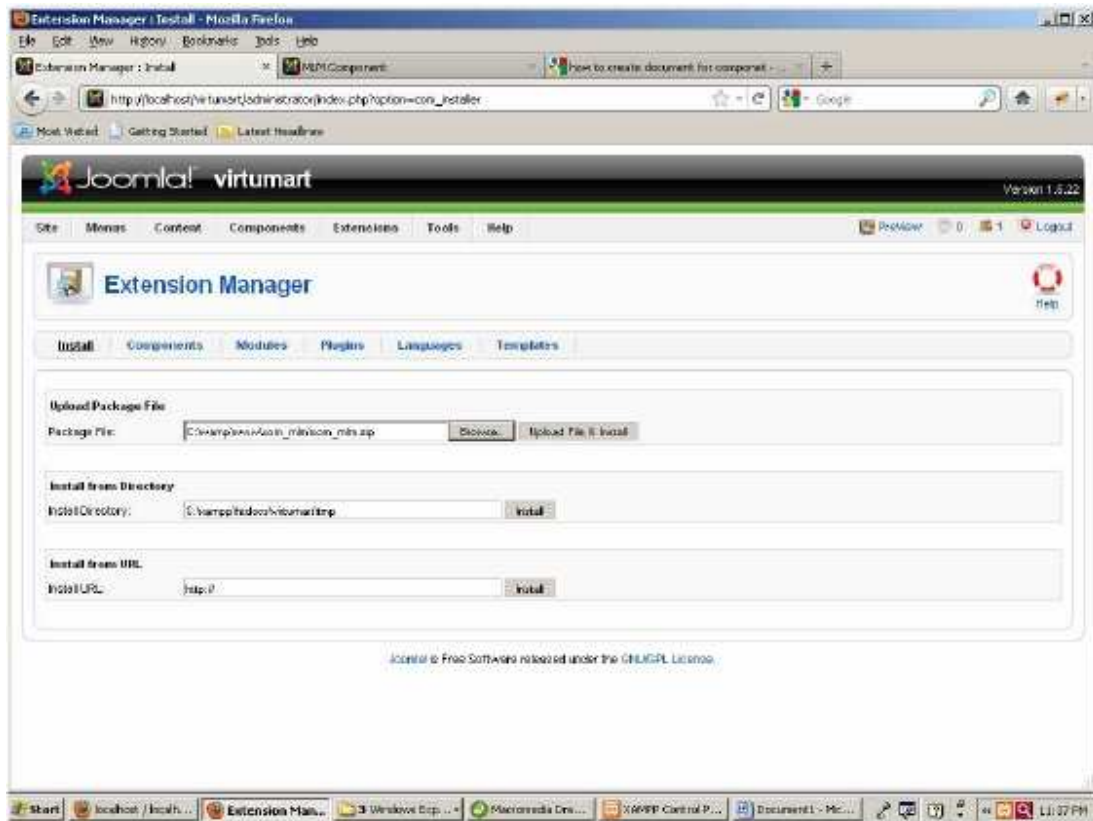

When member achieve 300 , 600 pairs under his , company share profit which set at backend side.

## At Front-end Side
